

INDEXES OF PATRISTIC AND ANCIENT WORKS IN RB

RB80, Fry et al. Collegeville, 1981, pp. 600-607

Numbers in boldface refer to passages that may be considered quotations from Patristic and Ancient sources, although this does not necessarily imply that St. Benedict was directly citing the work in question. All other loci indicate possible sources and allusions that illustrate the cultural and linguistic background, even though they may not be immediate sources. For complete bibliographical information, see pp. xxi-xxxii.
